

new_record_handler

```
graph LR; A[new_record_handler] --> B[read_leaderboard_file]; B --> C[split];
```

A flowchart with three rectangular boxes connected by arrows. The first box, labeled 'new_record_handler', is shaded gray. A dark blue arrow points from its right side to the second box, labeled 'read_leaderboard_file', which is white. Another dark blue arrow points from the right side of the second box to the third box, labeled 'split', which is also white. All boxes have a black border.
